PROFESSIONAL SUMMARY

Final-year B.E. Computer Science and Engineering student (graduating 2027) and MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js and MongoDB. Skilled in REST API development, JWT authentication, database design and responsive UI development. Completed a Python Full Stack internship using Django and React.js. Seeking a MERN Stack Developer role.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, SQL

Frontend: React.js, React 19, Redux, Vite.js, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, Django, Flask, RESTful APIs

Databases: MongoDB, Mongoose, MySQL, SQLite

Authentication & Security: JWT, BcryptJS, Password Hashing

Tools: Git, GitHub, VS Code, Vercel

PROFESSIONAL EXPERIENCE

Python Full Stack Intern | Inetz Technologies | December 2025 – January 2026

- Developed full-stack application features using Python, Django and React.js.
- Built backend functionality and integrated it with the React frontend for an AI Resume Analyzer application.
- Used Git and GitHub for version control and collaborative development.

PROJECTS

ApexMart – Full-Stack E-Commerce Web Application | Live Demo: apex-mar-t.vercel.app
React 19, Redux, Node.js, Express.js, MongoDB, Mongoose, JWT, BcryptJS

- Developed a full-stack e-commerce platform with separate customer and administrator roles.
- Implemented JWT authentication, BcryptJS password hashing, product search, category filtering and a persistent shopping cart.
- Built REST APIs for user authentication, product management, customer reviews and order processing.
- Created an admin dashboard with product CRUD operations, order management, user management and sales metrics.

Workmate – Hourly Worker Hiring Platform | Live Demo: workmate-brown.vercel.app
React.js, Vite.js, Node.js, MongoDB

- Developed a full-stack platform connecting customers with local hourly workers such as plumbers, electricians, fitters and helpers.
- Built responsive user interfaces using React.js and Vite.js.
- Developed backend services with Node.js and MongoDB to manage workers, customers and platform data.

EDUCATION

B.E. – Computer Science and Engineering | Asan Memorial College of Engineering and Technology
CGPA: 7.88/10 | Expected Graduation: 2027

CERTIFICATIONS & TRAINING

- MERN Stack Development – GUVI (Completed)
- Java Full Stack – QSpiders (In Progress)

LANGUAGES

Tamil, English
